SAURABH SINGH

Senior Software Engineer | Full-Stack Developer | AI/GenAI Engineer

Phone: +91 70581 07207 | Email: saurabhsingh2001.sk@gmail.com | Location: Maharashtra, India

GitHub: github.com/100rabh999 | LinkedIn: linkedin.com/in/saurabh-singh-59b323241

PROFESSIONAL SUMMARY

Software Engineer specializing in full-stack development, AI-powered applications, enterprise software, and industrial automation.
Experienced in independently managing direct client engagements: requirements, solution architecture, hardware interfacing, deployment, support.
Hands-on experience building hardware-integrated applications: DWS, barcode scanners, cameras, X-ray integration, Pick-to-Light warehouse systems.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Techeeez (Goregaon, Maharashtra) | June 2026 - Present

* Design and develop scalable, production-ready web and mobile applications across the complete software development lifecycle.
* Develop backend services, REST APIs, and database-driven architectures using Node.js, React, Next.js, Flutter, PostgreSQL, Prisma, Firebase.

Independent Software Consultant & Full-Stack Developer | Independent Engagements | 2025 - Present

* Manage direct client engagements end-to-end: client consultation, technical estimations, architecture, development, deployment, and support.
* Selected Clients: Shadowfax, Wabtec Corporation, KAMA Ayurveda, Delite Engineering, Sidhicon Automation, Mascon, Anokhee, Redwings.
* Deliver hardware-integrated industrial applications (DWS, Pick-to-Light, scanners, cameras, and local database sync).

Junior Software Engineer | Aman Satija and Co. (Goregaon, Maharashtra) | October 2022 - May 2026

* Developed frontend and backend components for web applications using JavaScript, Python, PHP, Laravel, Node.js, and SQL databases.
* Architected database-driven workflows, third-party API integrations, debugging, and continuous production maintenance.

Internships: Machine Learning Intern (CodSoft, 2023) | Web Developer (WriteJet, 2023) | Java Web Developer (SDAC, 2023)

SELECTED INDUSTRIAL AUTOMATION & CLIENT SOLUTIONS

1. Dynamic Dimension & Weighing System (DWS) -- Client: Shadowfax (Deployments: Mumbai, Bengaluru, Kolkata, Lucknow)
* Integrated measurement systems, barcode scanners, high-speed cameras, and X-ray images with local DB and cloud API synchronization.

2. Pick-to-Light Warehouse Automation System (PTL) -- Client: Wabtec Corporation (Deployment: Rohtak, Haryana)
* Scanner-integrated PTL controller orchestrating light indications, multi-scanner inputs, label printing, and day-wise local DB logs.

3. Static Dimension & Weighing System (DWS) -- Client: KAMA Ayurveda (Deployments: Coimbatore & Mumbai)
* Hardware-integrated dimension capture, configurable receipt generation, local failover database, and automated cloud sync.

4. Enterprise Solutions: Sidhicon (Business Suite), Mascon (Material Certs), Anokhee (E-Commerce), Redwings (Logistics)
* Delivered end-to-end custom systems spanning inventory management, quotation engines, material certification, and freight portals.

AI, GENAI & DIGITAL PRODUCT ENGINEERING

1. MobCast AI / TTCV2 -- AI-Powered Course Generation Platform

* Living Context engine for context-aware conversations, course blueprint generation, scene scripts, and AI image orchestration.
* Bounded regeneration, structured JSON output validation, Google Gemini & OpenRouter integrations with S3 asset pipeline.

2. Nirmil AI -- Financial Announcement Intelligence Platform

* Automated NSE/BSE exchange monitors, multi-page financial PDF extraction, keyword processing, and Google Gemini document analysis.

3. Nirmil Financial Results Terminal -- Chrome Extension (Manifest V3) & Dashboard

* Service Worker architecture, CSV-configurable rule filtering, automated PDF retrieval, and structured JSON results extraction.

4. DigiMaker -- Political Banner Creation Platform

* Canvas serialization engine, administrative Next.js web portal, Express API, SQLite/Prisma backend, and Flutter cross-platform mobile app.

TECHNICAL SKILLS

* Languages: JavaScript, TypeScript, Python, PHP, Java, SQL, Dart, HTML5, CSS3
* Frontend: React.js, Next.js, Vite, Flutter, Tailwind CSS, Material UI, Bootstrap, Responsive Design, Canvas UI
* Backend & APIs: Node.js, Express.js, Laravel, RESTful APIs, Backend Architecture, Authentication, WebSockets & Real-Time
* Databases & ORM: PostgreSQL, MySQL, SQLite, Prisma, Sequelize
* AI & GenAI: Google Gemini, Google GenAI, OpenRouter, LLMs, Prompt Engineering, Context-Aware AI, PDF Intelligence, Structured JSON
* Mobile Development: Flutter, Dart, Cross-Platform Mobile Apps, Mobile API Integration
* Industrial & Hardware: Dimension & Weighing Systems (DWS), Barcode Scanners, Pick-to-Light (PTL), Cameras, X-Ray, Local DBs
* Cloud & DevOps: Firebase, Oracle Cloud, AWS/S3, Linux, Nginx, Docker, Git, GitHub
* Consulting & SDLC: System Architecture, Database Design, Full SDLC, Estimation, Client Communication, Deployment, Support

EDUCATION

Master of Computer Science (M.Sc. CS) | Thakur College of Science and Commerce | 2024 - 2026

* CGPA: 9.8 / 10 | Specialization in advanced computing, distributed architectures, and intelligent systems.

Bachelor of Computer Science (B.Sc. CS) | Thakur College of Science and Commerce | 2021 - 2024

* CGPA: 9.6 / 10 | Distinction in algorithms, data structures, database engineering, and software development.

Higher Secondary Certificate (12th - PCMB): 96.00% | Secondary School Certificate (10th): 91.20%
