# SAURABH SINGH

SOFTWARE ENGINEER

Phone: +91 70581 07207 | Email: saurabhsingh2001.sk@gmail.com | Location: Maharashtra, India
GitHub: https://github.com/100rabh999 | LinkedIn: https://www.linkedin.com/in/saurabh-singh-59b323241/

## PROFESSIONAL SUMMARY

Accomplished Software Engineer, Full-Stack Developer, and AI/GenAI Engineer with proven expertise in designing, building, and scaling end-to-end web and mobile applications, microservices, and AI-driven platforms. Experienced in leading client consulting projects for enterprise logistics and industrial automation, delivering high-impact solutions such as Dimensioning & Weighing Systems (DWS) and Pick-to-Light (PTL) workflows. Skilled across modern full-stack architectures (Node.js, React, Next.js, Python, Flutter, PostgreSQL), cloud platforms, and Generative AI API integrations to solve complex business and operational challenges.

## TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, Dart, Java, SQL, HTML5, CSS3
Frontend & Mobile: React.js, Next.js, Tailwind CSS, Bootstrap, Flutter, React Native
Backend & Cloud: Node.js, Express.js, Laravel, RESTful APIs, GraphQL, Firebase, AWS (S3, EC2), Nginx
AI & GenAI Engineering: OpenAI API, LLM Integration, Prompt Engineering, Document/Announcement Intelligence, Speech-to-Text & TTS Pipelines
Databases & Tools: PostgreSQL, MySQL, SQLite, Prisma ORM, Redis, Git, GitHub, Linux, Docker
Cloud & Tools: Firebase, AWS fundamentals, Git, GitHub, Linux, Nginx
Industrial Automation & Domain Expertise: Dimensioning & Weighing Systems (DWS), Pick-to-Light (PTL) Systems, E-commerce Platforms, Warehouse Automation

## PROFESSIONAL EXPERIENCE

Senior Software Engineer | Techeeez | *Jun 2026–Present* | Goregaon, Maharashtra · Hybrid

- Develop and maintain production-oriented web and mobile applications using modern software engineering practices.
- Contribute across the software development lifecycle, from requirements analysis and implementation to testing, deployment, and maintenance.
- Build and integrate RESTful APIs, backend services, database models, and third-party services.
- Develop responsive frontend experiences and collaborate across application layers using Node.js, React.js, Next.js, Flutter, Python, PostgreSQL, MySQL, Prisma, and Firebase.

Independent Software Consultant & AI Solutions Architect | Direct Client Engagements | *2024–Present*

- Enterprise Logistics & Industrial Clients (Shadowfax, Wabtec, KAMA Ayurveda, Delite Engineering): Architected, deployed, and maintained mission-critical Dimensioning & Weighing Systems (DWS) and Pick-to-Light (PTL) warehouse automation solutions integrated with hardware indicators and operational workflows.
- Automation & Custom Software Clients (Sidhicon Automation, Mascon Techneeds, Anokhee Creations, Redwings Logistics): Delivered end-to-end custom business software suites, automated material certificate generation systems, bespoke e-commerce platforms, and logistics management applications.

- Translate client and operational requirements into technical approaches; support application workflows, debugging, integration decisions, and continuous system improvements.

Junior Software Engineer | Aman Satija and Co. | *Oct 2022–May 2026* | Goregaon, Maharashtra · Hybrid

- Developed and maintained web application features across frontend and backend components.
- Worked with JavaScript, React.js, Node.js, PHP/Laravel, and SQL-based data workflows to implement application functionality.
- Supported debugging, maintenance, feature delivery, and collaboration across software development tasks.

Machine Learning Intern | CodSoft | *Sep 2023–Oct 2023* | Remote

- Completed internship work involving Python programming and data visualization.

Web Developer Intern | WriteJet | *May 2023–Jun 2023*

- Contributed to the development of an education-technology website.

Java Web Developer Intern | SDAC Infotech | *Apr 2023–May 2023* | Borivali, Maharashtra

- Worked on hybrid application development using Java and contributed to a Product Analysis System.

## PROJECTS

Dimensioning and Weighing System (DWS) | Delite Engineering

- Industrial software system involving dimensioning and weighing workflows, system maintenance, troubleshooting, and software/hardware integration support.

Dimensioning and Weighing Systems (DWS) | Shadowfax, KAMA Ayurveda, Delite Engineering

- Designed, integrated, and supported industrial software solutions capturing dimensioning and weighing data in real time, streamlining logistics and warehouse operations.

Pick-to-Light (PTL) Warehouse Automation System | Wabtec

- Engineered software interfaces and controller workflows connecting warehouse management systems with hardware pick indicators to optimize order fulfilment.

Business Software Suite & Material Certificate Generator | Sidhicon Automation & Mascon Techneeds

- Built specialized enterprise tools for managing internal workflow operations and automated production material certification generation.

E-Commerce & Logistics Platforms | Anokhee Creations & Redwings Logistics

- Developed scalable retail e-commerce software and customized logistics operational tracking platforms.

Pick-to-Light (PTL) Warehouse Automation | Sidhicon Automation Pvt. Ltd.

- Warehouse automation solution supporting software workflows linked to hardware-based picking indicators and operational processes.

Political Banner Platform | Flutter, Next.js, Node.js, Prisma

- Banner creation and management platform comprising a mobile application and web-based administration components.

Nirmil AI — NSE/BSE Announcement Intelligence | Node.js, Generative AI API

- The project focused on processing and interpreting stock-exchange announcements through backend processing and generative AI integration.

MobCast AI / TTCV2 Platform | Next.js, Node.js, AI Speech & Translation APIs

- Engineered AI-powered digital media processing tools providing multi-language text-to-speech, audio conversion, and content translation workflows.

## EDUCATION

Master of Science (Computer Science) | Thakur College of Science and Commerce | *2024–2026* | CGPA: 9.8
Bachelor of Computer Science | Thakur College of Science and Commerce | *2021–2024* | CGPA: 9.6
Higher Secondary Certificate (Science — PCMB) | 96%
Secondary School Certificate | 91.20%

## CERTIFICATIONS

• Cloud Computing; GitHub and Git; Data & Analytics — Cloud Counselage Pvt. Ltd. (2023)
• Data Structures and Algorithms — LetsUpgrade (2023)
• Java, Python, PHP and MySQL Training — Spoken Tutorial, IIT Bombay
• JsonPowerDB Certified Beginner — VoltixData/Login2Xplore (2023)
